

Marianna Anyfanti is a Fully Qualified Actuary and full member of the Hellenic Actuarial Society (HAS), the Cyprus Association Of Actuaries (CAA), the Actuarial Association of Europe (AAE) and the International Actuarial Association (IAA). She has been the president of HAS since 2022, an elected member of the Management Board of HAS since 2019, and a lecturer at HAS for the course of General Insurance Reserving and Pricing Principles since 2014. Marianna is the Founder and Managing Director of Anras PCC (www.anras.gr), that provides actuarial and risk management services to commercial companies, insurance companies, pension funds, audit firms and of course to any other sector with actuarial needs, establishes Occupational Pension Funds and helps its clients comply with supervisory and/or accounting requirements.

Her professional career in the insurance market began in 2003, where she worked in the actuarial departments of large-scale insurance and consulting companies. Since then, Marianna has successfully conducted numerous actuarial studies for employee benefits under IAS 19 and for Pension and Health Funds. In addition, Marianna has been involved in all the processes and tasks of an actuarial department, such as capital requirements under Solvency II, analysis of profitability and reserves adequacy of insurance products, new product design, reinsurance, reporting to regulatory authorities, accounting standards etc. A milestone in her career is when she led the calculations of the actuarial studies for the Auxiliary Pension Funds in 2011 on behalf of the National Actuarial Authority, where Greece won excellent reviews by AWG-EPC-ECFIN, the Working Group on Ageing Populations and Sustainability of the Economic Policy Committee (EPC). Beyond the Greek insurance market, Marianna also has extensive experience as an actuary in Cyprus, Turkey, Romania and Bulgaria.
